

Course Progress Policy and Procedure

Purpose

The purpose of this policy is to ensure that Newton College (NC) systematically monitors and reports student's course progress. This policy is stipulated in accordance with the requirements of Standard 8 of the ESOS National Code 2018. NC are proactive in notifying and counselling students who are at risk of failing to meet their course progress requirements. NC reports students, under Section 19 of the ESOS Act, who have breached the course progress requirements.

Scope

This policy applies to all current NC students.

Policy

NC monitors, records and assesses the course progress of each student for the course in which the student is currently enrolled. This policy and procedure defines the requirements for student satisfactory course progress, the processes for monitoring, recording and assessing the student course progress and the processes for the NC intervention strategies for identifying and assisting students to achieve satisfactory course progress. The procedure sets out the processes for reporting student unsatisfactory course progress on PRISMS according to ESOS Act Section 19.

NC assess student's progress at the end of each compulsory Term. The Term is 10-12 weeks long subject to qualifications. One Term is considered the minimum length of time in which it is reasonable for the RTO Manager to make an assessment of a student's course progress.

- Satisfactory course progress is achieved where a student successfully completes more than 50% of course progress requirements in a Term
- Unsatisfactory progress is defined as not successfully completing or demonstrating competency in more than 50% of the course progress requirements in a Term.
- Course breach is defined as not successfully completing or demonstrating competency in more than 50% of the course progress requirements in TWO consecutive Terms.

NC will monitor overseas students' attendance as a reference for course progress monitoring. Overseas students must meet their visa obligation regarding attendance, wherever applicable.

Procedure

- 1) The student's course progress will be monitored from the start of the course. At the end of each Unit, the trainer will update student results in the Student Course Progress Sheet.
- 2) If a student has been assessed as Not Yet Competent in more than 50% of course requirements in any completed term, the RTO manager must be informed by the trainer.

- 3) Whenever a student fails to present successful completion of more than 50% of course progress in a given term, student will receive the 1st warning letter as a reminder for student to consult with trainer to seek reasonable support.
- 4) After the enrollment completion of one term if a student fails to present successful completion of more than 50% of the course progress, they will be identified as Stage 1 'at risk' of not making satisfactory course progress requirements and will receive the 2nd warning letter. Within 10 days of the receipt of the 2nd warning letter, students are required to attend the ISM (Intervention Strategy Meeting) with the lead trainer to discuss their poor academic performance and develop strategies to ensure that they meet the course progress requirements.
- 5) When a student receives the 2nd warning letter for TWO consecutive terms, the student will be identified as Stage 2 'at risk' of not making satisfactory course progress requirements. Within 10 working days of the receipt of the 2nd warning letter, student must attend the ISM with the lead trainer for intervention. If student fails to attend the ISM meeting, they will be issued a Notification of Intention of Reporting letter (NIR) stating that they have failed to obtain satisfactory course progress in two consecutive completed terms, therefore in breach of the RTO course progress requirements.
- 6) The NIR will inform the student that they are able to access the NC Complaints and Appeals process and that the student has 20 working days from the receipt of the NIR in which to do so.
- 7) If a student fails to appeal the decision within the 20-working day period, the RTO Manager will report the student to DHA via PRISMS by cancelling the student enrolment on the basis of unsatisfactory course progress. Before student's enrolment is cancelled, student must continue with study and maintain attendance and course progress.
- 8) If a student appeals the decision the appeals process will be followed in accordance with the Complaints and Appeals Policy and Procedure.

Intervention Strategy

Intervention strategies are formed on a case by case basis and will be initiated by a meeting with the student to identify the cause that is placing the student at risk. Within this meeting, strategies to assist the student in completing the course within the expected duration shall be discussed and implemented as required. The meeting and outcomes are to be agreed and documented by both the student and the lead trainer.

Intervention strategies that may be adopted to assist the student in completing the course within the expected duration may include, but are not limited to:

- Extra tuition and support to be organised
- Timetable adjustments
- Personal strategies to improve the student's ability to complete the course requirements
- Review of assessment strategies
 - Variation/extension of student's enrolment
 - Requesting the student to re-submit assessments
 - Providing one-to-one assistance and counselling to help the student satisfactorily complete their course

- Allowing the student to defer the course on a reasonable and justifiable grounds.

At the ISM, the lead trainer will consider (and, implement if applicable) the following intervention strategies:

- Identify any problems that are impeding the course progress of the student and put measures in place to resolve these problems,
- Arrange with the student for additional work to be undertaken, within an agreed timeframe,
- The completion of all outstanding assessments, according to an agreed timeframe,
- Assess whether the course is still suitable for the student,
- Assess whether the reassessing of any assessment tasks is appropriate
- An Intervention Strategy will be developed with an agreed individual support plan being signed by student.
- During the ISM the student will be advised that unsatisfactory course progress in 2 consecutive Terms may lead to the student being reported to DHA and the cancellation of his/her visa, subject to the outcome of any appeals process.

NC will keep copies of these documents in the student's file, together with a record of any decisions that are made.

Intervention Strategy – Procedure

NC will only extend the duration of the student's enrolment only in the case where it is identified that the student will not be able to complete the course within the expected duration, as specified on the student's CoE, as the result of:

- Compassionate or compelling circumstances (for example illness where a medical certificate states that the student was unable to attend classes or where the registered provider was unable to offer a pre-requisite unit);
- The RTO implementing its intervention strategy for students who were at risk of not meeting satisfactory course progress; or
- An approved deferment or suspension of study has been granted under the ESOS standard 9.

Any variations to the CoE are retained within the student file. All communication and any strategies arranged will be documented. An approved deferment of student enrolment should be in accordance with Standard 9 of National Code 2018.

Completion within Expected Duration of Study

- At NC, the course progress procedure requires that at the end of each Term, the results of each student are checked to determine the course progress status for that Term.
- NC will extend the duration of the student's study only where it is clear that the student will not complete the course within the expected duration.
- NC will implement the intervention strategy (see above) for students who are at risk of not meeting satisfactory course progress in an attempt to support students completing within their expected course duration.

- Newton College will report the student enrolment change through PRISMS when there are changes to the original course duration.
- Records of variation must be maintained in the student file.
- The expected duration of study specified in the student's CoE must not exceed the CRICOS registered course duration.
- All NC students are required to complete their studies within the timeframe indicated on their CoE and student visa. NC shall attempt all possible measures to ensure that all students are given the opportunity to complete their studies within this timeframe. A copy of CoE will be kept in each student's file and variations to the CoE will also be retained within the student file and the same information is stored in the student management system.

Definitions

National Code:	National Code of Practice for Providers of Education and Training to Overseas Students 2018
ESOS Act:	Education Services for Overseas Students Act 2000
Course:	Program of Education or Training defined as a course in the ESOS Act
PRISMS:	Provider Registration and International Student Management System
DHA:	Department of Home Affairs
Term:	A period of study
Intervention Strategies:	A strategy aimed at modifying a process, in order to change the expected outcome.
